

KNOW BEFORE YOU GO

I-105 Construction
2018 – 2021

Interstate 105 Bridge Repair Project

The Interstate 105 bridge repair project will bring I-105 bridges and ramps between Delta Highway and downtown Eugene up to current standards. Built in the late 1960s and early 1970s, the bridges need repair and upgrades. Work will include new guardrails, deck paving, earthquake reinforcements, joint replacements, and other repairs.

Expect each ramp to be closed at some point between now and project completion. The first closure on the 6th Ave on-ramp is expected to take about six weeks, mid-March to May 2019.

*All schedules are subject to change due to weather.
